

# Cedric Vicera

vicera@seas.upenn.edu | www.cedricvicera.com | www.linkedin.com/in/cedricvicera

## EDUCATION

### University of Pennsylvania

Expected May 2023

*Master's in Computer Science (MCIT)*

### University of Arizona

May 2020

*B.A. in Philosophy with Honors*

## TECHNICAL SKILLS

**Languages** Python, R, SQL, Java, C, HTML

**Technologies** pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

**Tools** Git, Jupyter, PyCharm, RStudio

## PROFESSIONAL EXPERIENCE

### St. Jude Children's Research Hospital

May 2021 – July 2021

*Biostatistics Research Intern*

*Remote*

- Wrangled pediatric oncology patient health records to visualize several average temporal trends in patient BMI based on presence vs. absence of bacteria species pair.
- Implemented a linear mixed-effects model in R to identify 3 bacteria species pairs correlated with elevated post-treatment BMI.
- Conducted hypothesis testing and presented results in a research seminar and wrote a manuscript detailing project methods and discussion.

### Computational Medicine and Informatics Collaboratory

Aug 2018 – May 2020

*Research Assistant*

*Tucson, AZ*

- Wrote scripts in Python/pandas and R to extract critical care telemedicine data to analyze failure rates and temporal differences between noninvasive ventilation strategies of 10K+ patients.
- Generated Sankey diagrams to visualize 9 patient subgroup outcomes.
- Applied logistic regression to show that NIPPV patients have an increase of 16.8% in mortality compared to HFNI patients, who carry a 6.6% increase in mortality.

## PROJECTS

### COVID-19 Risk Factor Predictor | Python, Flask, HTML/CSS/JavaScript, Git

Jan 2021

- Developed a full-stack web application to display an analysis of identified COVID-19 risk factors for a user.
- Implemented front-end and back-end services using Flask/Python in conjunction with HTML/CSS/JavaScript.
- Conducted data analysis in Python/pandas by leveraging CDC COVID-19 Case Surveillance Public Use Data to compute user results.

## PUBLICATIONS

P. Essay, **C. Vicera**, J. Mosier, V. Subbian. Analysis of Acute Respiratory Failure Patient Noninvasive Ventilation Therapy. *American Thoracic Society International Conference*. 2020.

**C. Vicera**. Persona Identification in Tele-ICU Data of Mechanically Ventilated Patients. *UROC Abstract Review*. 2019.

## PRESENTATIONS

### The Effect of the Gut Microbiome on Obesity in Survivors of Childhood Cancer

July 2021

- *POE Lunch & Learn Series* - St. Jude Children's Research Hospital

### Phenotyping of Mechanically Ventilated Patients in the ICU

August 2019

- *UROC Summer Colloquium* - University of Arizona

### Persona Identification in Tele-ICU Data of Mechanically Ventilated Patients (Poster)

August 2019

- *24th Annual UROC Research Conference* - University of Arizona
